Sialendoscopy Technological Workshop

The Technological Workshop with the **Cook Medical Company**, will be a great opportunity for the participants to manipulate freely and as much as they want different instruments and specific devices used in different fields of ENT Endoscopy.

The experts will share their experience very practically on these open-stands and answer to the technical questions.

The Rhinology Dissection Course

The course will be held in the place of the congress. The number of places is limited to 9 stations equipped with video sets, endoscopes, specific instrumentation and shavers. This will also offer the opportunity to discover the dilation sinus system with surgical navigation.

Only a few places still available.
