3rd INTERNATIONAL MEETING
Cannes – Mandelieu, France
Centre Expo Congrès
November 21 – 22, 2014

• Endoscopic sessions with experts
• Round tables
• Technological sessions
• Posters
• Non endoscopic procedures

Rhinosinusology, Laryngology, Voice, Otology, Facial surgery, Traumatology, Salivary glands, Pediatric endoscopy, Base of skull, Lacrimal surgery

THE FILM CHALLENGE
www.ent-endoscopy.com

• Sessions endoscopiques par experts
• Tables rondes
• Sessions technologiques
• Posters
• Techniques non endoscopiques

Rhinosinusology, Laryngology, Voix, Otologie, Chirurgie Faciale, Traumatologie, Glandes salivaires, endoscopie Pédiatrique, Base du crâne, Chirurgie lacrymale

VIDEO DISSECTION
November 21-22, 2014

Expo Congress Center

Boulevard des Ecureuils
06210 Mandelieu, France
Why ENT ENDOSCOPY?

The diagnostic and surgical techniques are regularly moving towards the mini-invasive procedures. The endoscopy is the major technique in all the fields of the ENT speciality: Rhinosinusology, Otology, Neuro-otology, Anterior base of the skull, Laryngology, Voice disorders, salivary Glands, Facial Surgery and Traumatology, Pediatric endoscopy, Lacrimal surgery.

Scheduled every 2 years, the objective of this event is to answer to the questions of the physicians in their daily practice and to present the most recent techniques thanks to the french and international experts. The non-endoscopic procedures are also described to offer a complete information.

- **Scientific Sessions**: diagnostic procedures, imagery, surgical indications and video procedures, pitfalls, management of the complications, materials, round tables, news, questions-answers.

- **Movie Challenge**: movies about medical and surgical endoscopy, prepared and commented in live with their authors to offer an efficient and very practical information. The ‘best’ film will be designed at the end of the meeting after the vote of the participants.

- **Technological Sessions**: presentation with an expert of daily used endoscopic and non-endoscopic surgical materials and technological devices (monitoring, navigation ...) : indications, peroperative pitfalls, interpretation, clinical cases.

- **Endoscopic Live Dissection on Anatomic Models**: all the steps and pitfalls of the nasal and paranasal sinus dissection and of the sialendoscopy, revealed on an anatomic model. Video and audio retransmission in live with experts.

- **Continuous Anatomic Endoscopic Dissection Movies**: presentation during all the time of the meeting of movies about anatomic endoscopic dissection on cadavers in a laboratory of anatomy.

- **Posters**: presentation of endoscopic techniques in ENT and facial and neck surgery (indications, procedures, results, discussion)
‘Live the Endoscopy is live the Future’ is our slogan. This meeting is watching the Present while being turned toward the Future.

This edition is the result of a long work of the scientific committee offering a very rich and innovative program. The best experts in the world will share their experience in an optimal organization.

We will welcome you with pleasure in this 3rd edition.

FACULTY

P. AIDAN  
M. BADR EL DINE  
C. BERTOLUS  
A. BIZEAU  
M. BLOCHING  
A. BLOEDOW  
HR. BRINER  
L. CASTILLO  
A. CHAYS  
C. CHOSSEGROS  
B. COULOMBEAU  
L. CRAMPETTE  
O. DASSONVILLE  
B. DEVAUCHELLE  
A. DEVEZE  
G. DE SUTER  
Ph ELOY  
F. FACON  
F. FAURE  
P. GARIN  
H. GLANZ  
A. JAMES  
S. KAKEHATA  
J. KOLENSDA  
G. LAWSON  
V. LUND  
J. MAGNAN  
F. MARCHAL  
D. MARCHIONI  
N. MARDYLA  
JP MARIE  
L. MIGIROV  
G. MORTUAIRE  
P. NICOLAI  
R. NICOLLAS  
JF NOGUEIRA  
G. NOGUEIRA  
J. OLIAS  
J. OLIVER  
J. PARIS  
R. PEROUSE  
D. POTHIER  
L. PRESUTTI  
M. REDDY  
E. REYT  
A. RICCI MACCARINI  
H. SALEH  
A. SAMA  
R. SCHMELZEISEN  
M. TARABICHI  
A. VAROQUAUX
**RHINOSINUSOLOGY**  
*Chairman: Ph ELOY*

**Session 1**
- The primary surgery of the frontal sinus - The anterior ethmoidectomy
- The balloon sinuplasty
- The surgical revisions of the frontal sinus
- The surgery of the olfactory disorders
- About the endoscope with adjustable angulation

**Session 2**
- Locoregional anatomy of the sphenoidal sinus
- Fungal ball of the sphenoidal sinus. Experience over 10 years of the endonasal surgery
- Ethmoidal and sphenoidal cerebrospinal fluid leaks
- Endonasal surgery of malignant tumors. The craniofacial resection. The step by step surgical procedure
- The surgery of the pituitary gland
- Tumors of the anterior skull base: exclusive endonasal and combined approaches

**LACRIMAL SYSTEM**  
*President: J. OLVER*

- The assessment of the lacrimal system. The place of the ENT and the ophthalmologist.
- The endonasal dacryocystorhinostomy. The value of the microdebrider-assisted procedure.
Session 1: Cholesteatoma

- Endoscopic anatomy of the middle ear
- Specific Instrumentation
- Preoperative imagery and endoscopy
- Indications and limits of the endoscopy
- Transcanal endoscopic surgical approaches
- Combined approaches
- Cholesteatoma of the petrosal apex

Session 2: Non-cholesteatomatous diseases

- Perforations of the tympanic membrane
- Ossiculoplasties
- Otosclerosis
- Glomic tumors
- Endoscopic procedures for cochlear implants

OTONEUROLOGY

- Endoscopic anatomy of the inner ear
- The place of the endoscope in the surgery of the acoustic neuroma
- Surgical treatment of the hemi-facial spasm
- Surgical treatment of the facial neuralgia
- The per-operative cochlear monitoring
MIDDLE AND INNER EAR IMAGERY  Chairman: A. DEVEZE

- State of the Art in imagery of the middle and inner ear. Techniques, indications and new procedures
- Discussion of clinical cases between ENT and radiologist

A. DEVEZE (France)
A. VAROQUAUX (France)

LARYNGOLOGY  Chairman: G. LAWSON

Session 1: Cancerology

- Endoscopic surgical treatment of the pre-malignant and early malignant glottic tumors
- Endoscopic surgical treatment of the glottic cancers
- Endoscopic surgical treatment of the supra-glottic cancers

O. DASSONVILLE (France)
G. De SUTER (Belgique)
H. GLANZ (Allemagne)
G. LAWSON (Belgique)
JP MARIE (France)
J. OLIAS (Portugal)

Session 2: Laryngeal palsies and tracheal stenosis

- Assessment of the laryngeal palsies
- Endoscopic functionnal evaluation with laryngeal electromyography and neuroleptanalgesia
- Endoscopic treatment and external approaches
- Indications and results of the laryngeal reinnervation procedures
- Indications and techniques of the titanium implant
- Tracheal stenosis: assessment and treatment
**VOICE**  
*Chairman: R. PEROUSE*

- Pitfalls in videostroboscopy  
- Surgery of the complex lesions: sulcus and glottic insufficiency  
- Vocal fold scars: endoscopic surgical treatments and results  
- Fiberoptic-assisted fat injection laryngoplasty

**FACIAL TRAUMATOLOGY**  
*Chairman: B. DEVAUCHELLE*

- Endoscopic surgical treatment for the anterior skull base fractures  
- Endoscopic surgical treatment for the mandibular condyle fractures  
- Indications in the treatment of the orbital fractures

**SALIVARY GLANDS**  
*Chairman: C. CHOSSEGROS*

### Session 1: Lithiasis and stenosis

- Imagery and new diagnostic management  
- Sialendoscopic diagnosis and treatments  
- Indications of the laser-assisted procedures  
- Balloon canaloplasty

### Session 2: Tumoral diseases

- Imagery. State of the Art. Discussion of clinical cases  
- Treatment and surgery. Current concepts
ROBOTIC SURGERY

Chairman: G. LAWSON

- Gasless Transaxillary Robotic approach to Thyroid Surgery
- Transoral Robot-assisted surgery for upper aerodigestive tract cancers

P. AïDAN (France)
G. LAWSON (Belgium)

PEDIATRIC ENDOSCOPY

President: L. MIGIROV

- Indications of the middle ear endoscopy for children
- Sialendoscopy for the treatment of pediatric salivary gland disorders
- Laryngeal pediatric laryngeal surgery
- Surgery of lacrimal disorders (congenital imperforation, stenosis, indications of the dacryocystorhinostomy: endoscopic and external approaches, indications of the Jones tube)

F. FAURE (France)
A. JAMES (Canada)
L. MIGIROV (Israel)
R. NICOLLAS (France)
J. OLVER (England)

SPECIAL LECTURE

- History and evolution of the endoscopy in ENT through the years

JF NOGUEIRA (Brazil)

TECHNOLOGICAL SESSION

The electromagnetic navigation in ENT

Fiagon
Bernas Medical

- Materials and procedures
- Indications
- Clinical cases

M. BLOCHING (Allemagne)
A. BLOEDOW (Allemagne)
This Challenge is a competition of movies dealing with the endoscopic techniques in ENT and face and neck surgery.

This event will enable to offer many efficient informations on techniques and surgical indications as well as comments in live from the author and a discussion with the participants.

Under the control of 2 eminent presidents, the movies will be subjected to the votes of the participants of the congress. According to all the criteria of notation, the best of movies will be announced.

**Presidents**

**V. LUND** (England)

**M. TARABICHI** (Emirates)

**ENDOSCOPIC DISSECTIONS**

**DISSECTION IN RHINOSINUSOLOGY**

- Dissection on a silicon head model
- Videotransmission and comments in live

**DISSECTION IN SIALENDOSCOPY**

- Dissection on a silicon head model
- Videotransmission and comments in live
CONTINUOUS VIDEOS OF ENDOSCOPIC ANATOMIC DISSECTIONS

- This session will take place continuously on the 2 days of the congress.
- Movies of endoscopic dissection in fields of Otology, Rhinosinusology and Laryngology will be performed and prepared by specialists within the laboratory of Anatomy of Namur in Belgium.
- This anatomical approach will enable to well understand the possibilities of the endoscopy and this specific endoscopic anatomy to be able to appreciate all the clinical applications described in the scientific sessions of the congress.

POSTERS

- The presentation of scientific posters will enable to explain scientific studies concerning the various procedures of endoscopy in all the fields of ENT and Face and Neck Surgery.
- Posters will be presented throughout 2 days by the congress.
Many visits with workshops and tastings are proposed on registration

Grasse, Mougins, Mandelieu
- Visit of the International Museum of Perfumes, old towns, Castle of Mandelieu, Classical Museum of Mougins
- Lunch in Provence

Saint-Paul de Vence, Antibes
- Visit of old towns, Picasso Museum, Maeght Foundation Museum, Chapel of Matisse
- Lunch in Provence

Nice, Eze
- Visit of old towns, medieval village of Eze, Factory of perfumes
- Lunch in Provence

Principality of Monaco
- Visit of the Seaport, old town, Prince Palace place, Saint-Nicolas Place
- Lunch in Provence
