

2018 November Friday 30th

07:45 am **Welcome & Registration**

08:30 - 10:30 am

Room: BIOT **Otology & Lateral Skull Base**

08:30 - 09:00 am **GLOMUS TYMPANICUM**

Chairmen: Iyer A, Bianconi L

08:30 **TEES for the removal of glomus tympanicum**

Badr El Dine M (9 min)

08:40 **Endoscopic management of glomus tympanicum: Modena experience**

Fermi M (9 min)

08:50 **Endoscopic CO2 Laser removal of glomus tympanicum**

Larrosa F (9 min)

09:00 **Discussion (4 min)**

09:05 - 10:30 am **STAPES SURGERY**

Chairmen: Isaacson B, Ayache D

09:05 **What is the interest of temporal bone imaging before stapes surgery for suspected otosclerosis**

Ayache D (9 min)

09:15 **Endoscopic stapes surgery**

Kakehata S (9 min)

09:25 **Advantages of endoscopes in stapedectomy**

Ozdek A (9 min)

09:35 **Endoscopic stapes surgery**

Thomassin JM (9 min)

09:45 **Comparison of outcomes of endoscopic stapes surgery Vs microscopic surgery**

Iyer A (9 min)

09:55 **Endoscopic stapes surgery: for or against? Systematic review and our experience**

Millet F (9 min)

10:05 **INTERACTIVE SURGERY - INSTRUCTIONAL COURSE - Otosclerosis & stapes surgery**

Isaacson B (15 min)

10:20 **Discussion (10 min)**

ROOM: OPIO **Rhinology & Anterior Skull Base**

CHRONIC RHINOSINUSITIS

Chairman: Vlaminck S

08:30 **Key anatomical landmarks for endoscopic sinus surgery**

Briner HR (15 min)

08:50 **Endonasal functional surgery and ambulatory surgery. No limits?**

Perottino F (10 min)

09:05 **Difficult to treat chronic rhinosinusitis**

Briner HR (15 min)

09:25 **Management of nasal polyposis: what do we propose in Nancy
 REAH: what does it mean? Does it change something in the surgical strategy?**

Rumeau C (15 min)

09:45 **Concepts of treatment of nasal polyposis**

Briner HR (15 min)

10:05 **Nasal secretions possible help in endotyping chronic rhinosinusitis
 outcome after ESS with or without asthma over 10 years, does it matter
 when is sinus surgery enough, when not?**

Vlaminck S (20 min)

Room : VALLAURIS Salivary Glands

08:30 Key-note lecture: Sialendoscopy in the world
Marchal F (15 min)

08:45 SUBMANDIBULAR STONES

Chairman: Marchal F

08:45 Submandibular swelling. Decisional tree and classifications
Chossegros C (10 min)

**09:00 Material Technical points from papilla (parotid & submandibular glands)
to extraction of L1 floating stones**

Lopez JM (10 min)

09:15 Combined approach for submandibular stones
Vergez S (10 min)

09:30 FRAGMENTATION

Chairman: Faure F

09:30 Indications and fragmentation of stones with stonebreaker
Cartier C (10 min)

09:45 Laser fragmentation. Technical points and limits
Faure F (10 min)

10:00 Sialendoscopy with holmium: YAG laser treatment for large sialolithiasis
Ozturk K (10 min)

10:15 What indication for lithotripsy ?
Chossegros C (10 min)

10:30 - 11:00 am Coffee-break around our partners

08:30 - 01:15 pm

Room : TOURRETTE Les Rencontres Infirmières

Room : COGOLIN Atelier Technique

Room : EXHIBITION Stands

11:00 - 01:15 am

Room: BIOT Otology & Lateral Skull Base

11:00 - 01:15 pm CHOLESTEATOMA SESSION

Chairmen: Badr El Dine M, Mohan Reddy M

11:00 PANEL: FROM THE TYMPANIC MEMBRANE RETRACTION TO THE CHOLESTEATOMA

11:00 Chronic otitis media: endoscopic approach
Reyes J (9 min)

11:10 Endoscopic treatment for eardrum retraction
Villari D (9 min)

11:20 Radiological classification of cholesteatoma: impact on surgical treatment
Marx M (9 min)

11:30 Surgery of cholesteatoma: from combined to exclusive endoscopic ear surgery
Badr El Dine M (9 min)

11:40 Endoscopic cholesteatoma surgery
Kadir Serkan O (9 min)

11:50 Surgical techniques of cholesteatoma invading ossicular chain under endoscope
Haidi Y (9 min)

12:00 Endoscopic inside out mastoidectomy. Drill, Ultrasonic bone aspirator or piezo device?
Mehta R (9 min)

12:10 Round table & Discussion (20 min)

12:30 FREE PRESENTATIONS

12:30 Endoscopic Surgery of Congenital Cholesteatoma
Badr El Dine M (9 min)

12:40 Endoscopic Surgery of External Auditory Canal Cholesteatoma: A United Kingdom Case Series
Cheong RCT (9 min)

12:50 Advantages of endoscopes in ossiculoplasty
Ozdek A (9 min)

01:00 Discussion (15 min)

SINONASAL TUMORS & JUVENILE ANGIOFIBROMA

Chairman: Rumeau C

- 11:00** **Sinonasal haemangiomas: case series**
Eloy P (15 min)
- 11:15** **Endoscopic surgery for tumours of the nose and the paranasal sinuses**
Briner HR (15 min)
- 11:40** **Transnasal endoscopic approach of sinonasal adenocarcinoma**
Rumeau C (15 min)
- 12:00** **Transnasal endoscopic approach for sinonasal neoplasm**
Molteni G (15 min)
- 12:20** **3D Endoscopic endonasal transplanum-transtuberculum approach in craniopharyngioma**
Pecorari G (15 min)
- 12:40** **Endoscopic approach for the treatment of advanced juvenile nasopharyngeal angiofibroma**
Tatar Emel C (15 min)
- 01:00** **Massive juvenile angiofibroma: 3D endonasal endoscopic approach**
Pecorari G (15 min)

11:00 - 01:15 pm PAROTID STONES & STENOSIS

Chairman: Cartier C

- 11:00** **Parotid swelling desisionnal tree**
Vergez S (10 min)
- 11:15** **Parotid stenosis endoscopic classification & main treatment**
Lopez JM (10 min)
- 11:30** **Parotid stones/Stenosis: L2L3 combined approach**
Marchal F (10 min)
- 11:45** **Endobuccal approach of L2L3 stones near the papilla**
Vergez S (10 min)
- 12:00** **Management of stenosis with ultrasonography and sialendoscopy**
Kim JK (10 min)
- 12:15** **Recurrent juvenile parotitis: pediatric stenosis**
Faure F (10 min)
- 12:30** **ROUND TABLE: parotid stones and stenosis (45 min)**

01:15 - 02:30 pm Lunch

02:30 - 04:30 pm

02:30 - 04:30 pm TYMPANIC MEMBRANE PERFORATIONS

Chairmen: Chen CK, Bordure P

02:30 PANEL: MICROSCOPIC / ENDOSCOPIC SURGICAL APPROACHES

- 02:30** **Trans-canal myringoplasty with microscope: minimal invasive surgery**
Portmann D (9 min)
- 02:40** **Endoscopic treatment for ear drum perforation: techniques and materials**
Bonali M (9 min)
- 02:50** **Comparison between transtympanic and elevation of TM flap in endoscopic tympanoplasty**
Chen CK (9 min)
- 03:00** **Endoscopic fat graft myringoplasty**
Thomassin JM (9 min)
- 03:10** **Endoscopic butterfly cartilage tympanoplasty**
Dursun E (9 min)
- 03:20** **The anterior tympanic membrane perforation: how do we fix it?**
Visvanathan V (9 min)
- 03:30** **Endoscopic management of large tympanic membrane perforations**
Ozdek A (9 min)
- 03:40** **Cartilaginous myringoplasty: microscope versus endoscope**
Bordure P (9 min)
- 03:50** **Round table & Discussion (20 min)**

04:10 FREE PRESENTATIONS

- 04:10 Evaluation of surgical outcomes in pre and post operative endoscopic tympanoplasty with tragal perichondrium
Hou WE (9 min)
- 04:20 Outcomes and cost analysis of patients undergoing bilateral endoscopic tympanoplasty on the same day
Wu-Qing W (9 min)

Room: OPIO Otology & Lateral Skull Base

02:30 - 04:30 pm LATERAL SKULL BASE

Chairmen: Marchioni D, Darrouzet V

- 02:30 Key-note lecture: Endoscopic lateral skull base: principles and indications 
Marchioni D (15 min)

02:50 PANEL: THE VALUE OF THE ENDOSCOPE IN THE MANAGEMENT OF PETROUS APEX LESIONS

- 02:50 Endoscopic approaches to the petrous apex
Kutz W (10 min)
- 03:05 Role of endoscopy in the removal of petrous apex chondrosarcomas: our experience in 15 cases
Darrouzet V (10 min)
- 03:20 Endoscopy-aided removal of CPA epidermoid cysts: a 15-year experience in 12 cases
Darrouzet V (10 min)
- 03:35 Endoscopic assisted petrous apex surgery
Soloperto D (10 min)

03:50 HOW I DO IT?

- 03:50 Retrosigmoid approach - How I do it?
Dubernard X (10 min)
- 04:05 Transcanal acoustic neuroma surgery
Marchioni D (10 min)
- 04:20 Transcanal internal auditory canal surgery: is the preservation of the cochlea possible?
Bianconi L (10 min)

ROOM: VALLLAURIS Rhinology & Anterior Skull Base

02:30 - 04:30 pm PITUITARY GLAND SURGERY

Chairman: Briner HR

- 02:30 Endonasal neurosurgical & ENT team approach in pituitary adenomas in turin
Pecorari G (20 min)
- 02:55 Endoscopic surgery of pituitary gland tumors
Briner HR (20 min)
- 03:20 Middle turbinate vascularised flap for reconstruction after trans-sphenoidal pituitary tumor resection
Mehta R (20 min)
- 03:45 Transcribriform and transplanum approaches
Briner HR (20 min)
- 04:10 Round table & Discussion (20 min)

04:30 - 05:00 pm Coffee-break around our partners

02:30 - 07:00 pm

Room : TOURRETTE Les Rencontres Infirmières

Room : COGOLIN Atelier Technique

Room : EXHIBITION Stands

05:00 - 07:00 pm

Room: BIOT Otology & Lateral Skull Base

05:00 - 07:00 pm DEVICES & TRAINING

Chairmen: Kakehata S, Devèze A

05:00 PANELS: DEVICES & 3D ENDOSCOPY

05:00 Exoscopy and microscopy in otosurgery

Canale A (9 min)

05:10 Augmented reality for minimally invasive transtympanic approach to middle ear

Bozorg-Grayeli A (9 min)

05:20 Effect of light intensity on image quality in EES

Iyer A (9 min)

05:30 Novel three-dimensional image system for endoscopic ear surgery

Lin CP (9 min)

05:40 3D EES: my experience

Chen CK (9 min)

05:50 Powered TEES

Kakehata S (9 min)

06:00 A transcanal endoscope holder for middle ear endoscopic procedures. A feasibility study

Devèze A (9 min)

06:10 Round table & Discussion (15 min)

06:25 PANEL: LEARNING & TRAINING

06:25 EES. A Scottish experience and learning considerations

Fradeani D (9 min)

06:35 Simulation in the training of EES

Iyer A (9 min)

06:45 Endoscopic ear surgery training on ovine model. Setting and preliminary experience

Bonali M (9 min)

06:55 Discussion (5 min)

Room: OPIO Otology & Lateral Skull Base

05:00 - 07:00 pm EUSTACHIAN TUBE - PERILYMPHATIC FISTULA

Chairmen: Dean M, Venail F

05:00 Key-note lecture: Treatment of eustachian tube diseases through nasal endoscopic approach. Indications and results

Venail F (15 min)

05:20 PANEL: SURGICAL PROCEDURES & RESULTS

05:20 Balloon tuboplasty: current indications, pitfalls and results after 3 years of experience

Geukens S (9 min)

05:30 Balloon eustachian tuboplasty

Batman C (9 min)

05:40 Balloon dilation of the eustachian tube under local anesthesia

Dean M (9 min)

05:50 Patient-perceived benefit of Eustachian tube dilatation as measured by the Glasgow Benefit Inventory

Van der Steen C (9 min)

06:00 Round table & Discussion (30 min)

06:30 FREE PRESENTATIONS

06:30 Retained Grommet in Eustachian Tube, a rare cause of failure in tympanoplasty

Yang CH (9 min)

06:40 Transtympanic endoscopy of the middle ear in the diagnosis and treatment of a perilymphatic fistula

Zehlicke T (9 min)

06:50 Discussion (10 min)

05:00 - 07:00 pm ANTERIOR SKULL BASE TUMORS

Chairman: *Marchioni D*

- 05:00 Transnasal endoscopic corridor to clivus lesions**
Soloperto D (15 min)
- 05:20 Endoscopic endonasal approach for clival chordoma**
Ozturk K (15 min)
- 05:40 Endoscopic transnasal anterior skull base reconstruction during intracranial lesion removal**
Gulino A (15 min)
- 06:00 Transnasal endoscopic management of meningioma**
Marchioni D (15 min)
- 06:20 Endoscopic surgery of the anterior skull base in young children**
James A (15 min)
- 06:40 Minimal invasive lateral endoscopic multiportal approach to the infratemporal fossa:
A cadaveric study**
Anschütz L (15 min)
- 07:00 pm Congress Closure**
